What is the difference between the Angel Fund and HSA?

The Angel Fund donations are contributions that are made directly to St. Aloysius School and will be used to support our teaching staff and will directly impact the students of St. Aloysius School. The HSA is a parent based board implemented to be the voice of the St. Aloysius School families. The HSA serves to promote goodwill and cooperation between and among parents, faculty and administration, striving for the well-being of all students. The HSA is also responsible for organizing parents to arrange social events and helping with the fundraising efforts of the Angel Fund to ensure the continued success of our school. The HSA and Angel Fund work in conjunction with each other and complement one another's efforts to make St. Aloysius School succeed.
